Re: In-use Heavy-duty Vehicles and Heavy-Duty Mobile Equipment based in California Engine Data Survey

Dear Government Agency Representative:

As explained in the California Air Resources Board letter date January 2, 2002, Arthur D. Little has been selected to collect data concerning your heavy-duty vehicles and heavy-duty mobile equipment. The attached forms were designed to facilitate the process.

In the first page of Fleet Information form you are asked to provide general information on your fleet, its activities, and terminal locations. The table on the second page of the form requires an input for each heavy-duty vehicle (>8,500 GVWR) or mobile equipment (>50HP) in your fleet. This does not include emergency vehicles, school buses, waste haulers, or transit buses. Please make as many copies of this form as is necessary to inventory your entire fleet. The third page of the form contains explanations of the data required for each column in the table.

The Contractor/Vendor List should be used to list the contact information of all the private firms you currently contract with for projects and services such as road construction or other transportation-related services.

Please feel free to provide this information in your own preferred format but do make sure that all the data requested is provided. If you have any questions, please contact Fanta Kamakaté by email at ARBsurvey@adlittle.com.

Arthur D. Little has a non-disclosure agreement with ARB and will maintain the confidentiality of the information you submit to us. Please submit your completed surveys at the following address:

TO: GOVERNMENT AGENCIES THAT OWN OR LEASE IN-USE HEAVY-DUTY VEHICLES AND EQUIPMENT BASED IN CALIFORNIA AND OTHER CONCERNED PARTIES

SUBJECT: REQUEST FOR ENGINE DATA CONCERNING IN-USE HEAVY-DUTY VEHICLES AND HEAVY-DUTY MOBILE EQUIPMENT

In order to have a better understanding of the composition of heavy-duty vehicles and mobile equipment currently operating in the State of California, we are requesting that owners of heavy-duty vehicles and equipment based in California submit specific engine, vehicle, and equipment data to the Air Resources Board (ARB). The data we gather are for our information only and are not part of a public rulemaking process. You will be notified and invited to public meetings in the future regarding any rules ARB develops pertaining to your vehicles and equipment.

ARB staff requests information for each specific vehicle or piece of equipment based in California. At this time we are only asking for on-road medium-duty and heavy-duty vehicle (> 8,500 lbs. GVWR) and heavy-duty off-road (> 50 hp) equipment information. We are also asking for the contact information for private firms that you currently contract with for projects or services, such as road construction or other transportation-related services. Sample forms are attached, which you may use to organize your data; you may also submit information in your own format. Please call the office if you need additional information on procedures for submission. We are using Arthur D. Little Inc. to process this data. They have a non-disclosure agreement with ARB to maintain the confidentiality of your information. This information may be submitted by fax, floppy disk, e-mail, or hard copy to the office address given below. It may also be provided on-line at <http://www.arb.ca.gov/diesel/dieselrrp.htm>.

Please submit your information to:

Ms. Fanta Kamakate
Arthur D. Little
10061 Bubb Road, Cupertino, CA 95014
(408) 517-1553-Fax, E-mail: ARBSurvey@adlittle.com

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
